

Foreign 2

King Krule

Well see I never even stretched her faith
This storm would not allow it
As you observe fools out of place
The time is spun around it

Well I know who calls when you're bare
Stripped from the moon
Well I stare sometimes and it tears away
With your soul

You may be foreign here
But I was foreign there
Well suffering here is someone's fear
You may be foreign here
But I was foreign there
We're suffering here

Isolated [?]
This part was never relative
I watched the way you ran away
Exhibiting my pride

Now watch me burn alive
As you're forced to cry
All I know that's inside
See I was torn by a [?]
And now they watch me crawl
See I was warned by a young man
And now I've lost it all

Isolated [?]
This part was never relative
I watched the way you ran away
Exhibiting my pride
