

Hate You

King's X

I'll never hurt you
I'll never bring you down
I won't desert you
I'll always be around

You don't know how much I hate you
You don't know how much I hate you

I'll never kill you
Or make you feel afraid
I'll never beat you
Or make you feel ashamed

You don't know how much I hate you
You don't know how much I hate you
