

# I Can't Help It

King's X

A feeling welling up inside  
That seems to grip my soul  
A never ending need  
As far back, as my mind can go

I just can't help it  
I just can't help it  
I just can't help it  
I can't help it

The gate flies open wide  
A momentary river flow  
Then back to scrutinizing  
Watch to see the the water slow

But I just can't help it  
I just can't help it  
I just can't help it  
I can't help it

I just can't help it  
I just can't help it  
I just can't help it  
I can't help it

So then a mark is left  
The feeling of some type of relief  
And then the laughter comes  
Reinforcing my belief

I just can't help it  
I just can't help it  
I just can't help it  
I can't help it

I just can't help it  
I just can't help it  
I just can't help it  
I can't help it

I just can't help it  
I just can't help it  
I just can't help it  
I can't help it

I just can't help it  
I just can't help it  
I just can't help it  
I can't help it
