

# You Know, I Know!

King the Kid

So let's go baby, this is the start of something,  
Let's go crazy, I can steal you tonight

And you think you got it all off your wish list  
But I'll show you everything that you're missing

I know you know I know you wanna  
Get it going (get it, get it going) now,  
I don't wanna stop, let your hair drop baby

You know I know you know I wanna,  
Keep it going now, keep it keep it going now  
We got it on lock, make this bottle pop

Dream on, dream on about me baby  
Dream on, dream on

And you're so amazing, the way you're looking at me,  
Intoxicating, I'm making you mine

But I'm taking every thought of yours as hostage  
And you can have them back as soon as he's forgotten

I know you know I know you wanna,  
Get it going (get it, get it going) now,  
I don't wanna stop, let your hair drop baby

You know I know you know I wanna,  
Keep it going now, keep it keep it going now  
We got it on lock, make this bottle pop

The second that we lose  
Ourselves into the groove  
I love the way you move

We knew it in the moment  
And the moment's passed  
It couldn't last  
While neither of us show it  
Your heart's in parts  
And I'm the start of the end

It's my breath on the back of your neck  
It's when, the memory's stuck in your head
