

Again And So On

Kinky

Well, here it is

They's wearing uniforms
One by one in a line
If you don't like yourself
Go flick that balls on someone else

I got some inner walls
Should be when I come down
'Cause I don't care what time this is
My heart is shall we start

And every second
I'm just living and I'm living it up
And every second
I'm just living and I'm living it up

I can't believe it
How I'm living and I'm living it up
And I'm sustaining
While I'm living and I'm living it up

And again and so on
And again and so on
And again and so on
And again and so on

I got nothing to lose
I ain't got nothing yet
The sweetest thing is
Keep on trying for a whole new breath

My heart is pounding loud
I can hear other sounds
I sing away from you
They launch me far away from ground

And every second
I'm just living and I'm living it up
And every second
I'm just living and I'm living it up
I can't believe it
How I'm living and I'm living it up

And again and so on
And again and so on
And again and so on
And again and so on

Living and I'm living it up
And again and so on
(Living and I'm living it up)
And again and so on
(Living and I'm living it up)
And again and so on
(Living and I'm living it up)
And again and so on
