

# Hey Love

Kira Isabella

Hey love, I've got a situation  
I've been trying to figure out  
Despite your nasty reputation  
I was right here waiting  
Cause you're all I ever dreamed about

Hey now, it used to be so easy  
But now it's gettin' kinda hard

One day you got me flyin' higher than the moon  
And the next day you're breaking my heart

Oh, why gotta play these games with me, woah woah  
Just another sweet taste of misery, woah woah  
You make me happy, you make me mean  
I smile when you're coming, I cry when you leave  
Woah woah

Don't you think that I've had enough  
Hey hey hey hey love

Hey love, you always come a knockin'  
And I always open up the door  
It only takes a bit of sweet talkin'  
Messes with my head and  
You've got me comin' back for more  
I'm kinda dizzy, what's wrong with me  
I should say no and just walk away

Why gotta play these games with me, woah woah  
Just another sweet taste of misery, woah woah  
You make me happy, you make me mean  
I smile when you're coming, I cry when you leave  
Woah woah

Don't you think that I've had enough  
Hey hey hey hey

Hey love  
Hey hey love  
Why you gotta do what you do to me, woah woah

Why gotta play these games with me, woah woah  
Just another sweet taste of misery, woah woah  
You make me happy, you make me mean  
I smile when you're coming, I cry when you leave  
Woah woah, woah woah

Don't you think that I've had enough  
Hey hey hey hey love
