

We Should Be Together

Kira Isabella

You see me it brings back feelings
I see you, you know you feel it too
Baby do you ever think about it
How we left each other
I've lost sleep about it too
Don't you think we should be together

Cause your lips should be on mine
Baby it should take all night
We're just wasting time
We should be together
Baby it should be a crime
To fall asleep at all tonight
We're just wasting time
We should be together

Oh oh oh, oh oh, oh oh oh
We should be together
Oh oh oh, oh oh, oh oh oh
We should be together

Every second without you
Is one more second thinking it all through
We don't have forever
Don't you want my heart now
Don't you want to stop going round
Going round and round

Cause your lips should be on mine
Baby it should take all night
We're just wasting time
We should be together
Baby it should be a crime
To fall asleep at all tonight
We're just wasting time
We should be together

Oh oh oh, oh oh, oh oh oh
We should be together
Oh oh oh, oh oh, oh oh oh
We should be together

Oh, oh
We should be together

Cause your lips should be on mine
Baby it should take all night
We're just wasting time
We should be together
Baby it should be a crime
To fall asleep at all tonight
We're just wasting time
We should be together

Oh oh oh, oh oh, oh oh oh
We should be together
Oh oh oh, oh oh, oh oh oh

We should be together
