

Undo It

Kirko Bangz

DJ Chose

Oh girl, I'm tryna get Chose

Kirko Bangz

Rollin' through the hood, just stopped by to say, "Wassup?"
Grew up with them niggas but they knew I don't trust them
Shawty used to curve, used to say I can't touch her
Couple years later, now she wishin' I cuffed her
Came up on you [?], damn near livin' in poverty
And you niggas came from money, 'member you were tryn' flyin' with me
'Member they tried to step on me, they took everything out of me
'Member they used to hop side of me, fuck 'em, that's how I got it in, yeah

Now I'm ruined, yeah, I'm ruined
And I came up on your dog ass and you can't undo it
Don't be hittin' me in my DMs, askin', "How you doin'?"
Do it big on you, baby boy, and you can't undo it
You can't undo it, you can't undo it
Oh, now she wanna be together? She must think I'm stupid
Dropped it 'bout in time, goddamn, you really blew it
And you know you can't undo it, no, you can't undo it

Say you wish me well, yeah yeah
I be hearin' different in the streets
So hard to tell, yeah yeah
I don't know who I should believe
I was tired, I was gettin' cold
When one couldn't get a tweak
Same niggas that I gave a feed
Didn't wanna see a nigga eat
I shoulda knew it, I shoulda knew it
Some niggas I was feedin'
They was the reason I was losin'
I'm still comin' down
Lane switchin', a nigga cruisin'
I'ma eat forever, my nigga because I'm proven
And lil' shawty, she let me hang in when I needed her the most
Thick, pullin', some ball players came in town and she went ghost
That Hennessy on deck right now, for that lil' bitch, I take a toast
You had my heart, girl, you was close, I almost put you under oath

Now that's ruined, yeah, that's ruined
And I came up on your dog ass and you can't undo it
Don't be hittin' me in my DMs, askin', "How you doin'?"
Do it big on you, baby girl, and you can't undo it
You can't undo it, you can't undo it
Oh, now she wanna be together? She must think I'm stupid
Dropped it 'bout in time, goddamn, you really blew it
And you know you can't undo it, no, you can't undo it

Still learnin' how to forgive
I just pray I ain't too late
Baby girl dyin' tryna live
She been bussin' 'round face-to-face
Someone tell him 'bout the Rollie face
Heard she moved into his place
Cute, always thought she a bae

Hit her with the, "Bitch, I need space"
Had love, I let it go
Can't save a bitch no more
That nigga replicatin'
I'm too original
But now she in that life
She workin' centerfolds
She got her fatty on him
But I had ten of those
This somethin' real or not?
Someone to hold me down
Can't fuck with feelings now
I wanna let my feelings out
'Member you was playin' games
You wanna be serious now
I'm not tryna hear it now
Don't you get all teary now 'cause

Now that's ruined, yeah, that's ruined
And I came up on your dog ass and you can't undo it
Don't be hittin' me in my DMs, askin', "How you doin'?"
Do it big on you, baby girl, and you can't undo it
You can't undo it, you can't undo it
Oh, now she wanna be together? She must think I'm stupid
Dropped it 'bout in time, goddamn, you really blew it
And you know you can't undo it, no, you can't undo it
