

## Watch What I Do

Kirko Bangz

Man the last time I seen you I was stuck on yo ass can't believe that I fucked with you  
Man the last time I seen you I was looking at myself like damn I was fucking her?  
I can't believe I was trippin' over you in the streets had yo ass all the east  
I can't believe I was trippin' over you knowing damn well you ain't care about me  
Now I'm rolling through the south side girls got they mouth wide bitch I'm a boss now  
A nigga about to stunt on yo ass  
Pull up pop truck at the stop sign  
Bitch I went and bought a all white Bentley last week cause I know that you want one  
And I went and moved in the same crib that you wanted  
Girl I know that I'm on one  
And every time that I get a chance to make you regret your man girl you know that Ima do it to ya  
And if I ever get ya friends sit behind a nigga ten then you know Ima do it to her  
You turned your back on a nigga when I needed you the most  
Now a nigga sitting in the ghost  
When I was down I could barley pay my lease now I'm up and I swear I'm about to do the most

Why'd you have to turn your back, turn your back?  
You chose to turn your back  
You turned on me  
Mhm turned yo back turned yo back  
Yeah now every time I see you watch I do  
When I when I pull up  
Watch what I do  
When I pull up  
Watch what I do  
When I pull up watch what I do

My friends talking to my friends like damn Kirk losing it  
I'm in the room talking to myself like damn Kirk boy you losing it  
I can't believe that it was a nigga birthday and you had a nigga going through that shit  
I know I fucked up and I know I did wrong but you wasn't suppose to do that shit  
I heard that everything that go around come around well guess what it's my turn  
And Ima pull up at your birthday party like I work at a law firm  
With a little fly bitch

On that suit and tie shit and its tailored Wiz Khalifa  
And it ain't about the money  
I would look this good if a nigga was delivering pizza  
I understand that my life to crazy and a nigga got too many bit  
ches on me  
But you living like a high school prospect always trying to com  
mit to something  
And now I gotta shine on ya ass  
Make sure you make the wrong choice  
Ima come through take your mama out to dinner in a all gold Rol  
ls Royce
