

Flame on Flame (a Slow Dirge)

Kishi Bashi

Our loving indiscretion
All the laws in motion
Cannot stir our ocean, uh-oh

As a woman with indecision
Countless acquisitions
Many scenes are missing
Ooh ooh ooh

But in the rain
I hear a sweet song with no name
Melody of infinite ambition

Bring on the rain (bring on the rain)
Nothing can stop the madness
Flame on flame (flame on flame)
Burning us all in sadness

Is it one of a kind of love?
Is it innocent and broken?
Pleasure that's unspoken, uh-oh

In the palace of many memories
Everything is offered
Many limbs are softened
Ooh ooh ooh

In a way
We live in a mansion with no walls
Windows of an infinite dimension

Bring on the rain (bring on the rain)
Nothing can stop the madness
Flame on flame (flame on flame)
Burning us all in sadness

Bring on the rain (bring on the rain)
Nothing can stop the madness
Flame on flame (flame on flame)
Burning us all in sadness

Learn to love the rain
It helps to fight the pain
Learn to love the rain
It helps to fight the pain
Learn to love the rain
It helps to fight the pain
Learn to love the rain
