Kitaro

Watching the world from our window of life
Can we see all there is that is real, that is right?
To the distance so far from our true understanding
Making us want more, making us see less

The fire
Making me clean, making me fly
Spinning me 'round and 'round
Spinning me 'round

The fire within your eyes
This mystic time I've known before
Once before the flame within my heart
Agreements made are now realized like before

Speaking of worlds driven far, far apart
How the innocence crushes the nature of things
To the point that we lose all we're trying to gain
Making us want more, making us see less

The fire
Making us clean, making us fly
Spinning us 'round and 'round
Spinning us 'round

The fire within your eyes
This mystic time I've known before
Once before the flame within my heart
Agreements made are now realized like before

The fire
Making us clean, making us fly
Spinning us 'round and 'round
Spinning us 'round

The flame
Making us clean, making me fly
Spinning me 'round and 'round
Spinning me 'round
