

## Goodbye Honeymoon Phase

Kitten

I'm slurring all my words  
You hit me where it hurts  
Somehow it only gets worse

Hey  
I think that came out the wrong way  
But I don't wanna fight in this place  
Too many friends and too much rosé  
I wanna go home, I wanna go home

Every time we fall in love it feels like forever  
Till the castle turns into a cage  
Maybe there's another day or week or year together  
But we both know something's changed

I'm slurring all my words  
You hit me where it hurts  
Somehow it only gets worse  
Goodbye honeymoon phase

I have never seen this look in your eye  
Maybe you should go back inside  
I don't want you to see me cry  
I wanna go home, I wanna go home

I'm slurring all my words  
You hit me where it hurts  
Somehow it only gets worse  
Goodbye honeymoon phase

(Goodbye honeymoon phase  
Goodbye honeymoon phase  
Maybe we just need time  
And some space  
I wanna go home, I wanna go home)

I'm slurring all my words  
You hit me where it hurts  
Somehow it only gets worse  
Goodbye honeymoon phase  
Goodbye honeymoon phase
