

Johnny, Johnny, Johnny

Kitten

We found it all in one good look
when Jesus died, we wrapped the money
It was just a car ride, car ride
from house to house

There's nothing else for me to do
close your eyes
make up rules to prove that you were watching watching over me

...Love it when your gone

The money's, spent ambition gone
half the time, we wake up and remember it's all equal equal
but down we're all the same

I tried what would make you perfect
white lies, johnny says he's all the rage
aren't you glad you came

The lights are out but nobody's home
It's Sunday night, we're all alone oh oh

We all just keep on watching
We all just keep it moving along
Stepping on black sand, waking up and knowing its wrong

...Love it when you're gone
