

Why I Wait

Kitten

I had a dream, you had a vision
We took a picture of the night
My suspicion is real and if I can't guarantee just how I might
feel tomorrow
When you call me those names
I think your trapped inside your body but your expression stays
the same
Can you both stay with me
Can you wait or will you take it from me
Could you wait would you take it from me, take it from me

I know, I know even when you work for it
I know, I know I'm gonna make you wait for this
I know, I know because I've just been practicing
Even though I really don't know what I want lately

So if that's what you want me to be
Will you stay at night and comfort me
I feel it when I close my eyes
This is why I wait

Can I call you big daddy
Can I hit you when I'm through
It's kind of complicated but you're over boy you're faded
I can say cause it's true
I'll say cause it's true
But that doesn't mean we're through

So if that's what you want me to be
Will you stay at night and comfort me
I feel it when I close my eyes
This is why I wait
So if this is what you want me to be
Then take away that part of me
I feel it when I close my eyes
This why I wait
And this what I feel
Your sister or your slave
That never was the deal

But I really don't know what I want lately, lately, lately
