

# Baby's Coming Home

Kitty Wells

Tonight baby's coming home  
Clean the house and dust the chandelier make my face and then comb out my hair  
And then I'll put this baby's dress on tonight baby's coming home  
For a while I thought our love was gone but both of us now know that we were wrong  
No longer will my nights be spent alone tonight baby's coming home  
For a while I thought our love was gone...  
Tonight baby's coming home
