

Love Makes The World Go Around

Kitty Wells

Love makes the world go around, around, around
Nothing could take its place has been found
Love makes people happy, from a king to a clown
Oh yes, love makes the world go around

I know a man, now he's old
Spent his all life courting silver and gold
Money was, he's the richest man in town
Inside his lonely mansion no love can be found

Love makes the world go around, around, around
Nothing could take its place has been found
Love makes people happy, from a king to a clown
Oh yes, love makes the world go around

Remember the tragedy of a great movie star
She brought joy to millions was worshiped from apart
It seems she had everything was gifted from above
Yet took her own life, she had everything but love

Love makes the world go around, around, around
Nothing could take its place has been found
Love makes people happy, from a king to a clown
Oh yes, love makes the world go around
Yes, love makes the world go around
