

Three Ways (to Love You)

Kitty Wells

There are three ways
Three ways, three ways to love you, it's true
One is the wrong way, one is the right way
But the best is the way I love you

One is the wrong way, like some people do
They're kissin', they're lyin', they'll never be true
But soon they will wonder why love flies away
And though how they'll cry, when they'll find out some day

There are three ways
Three ways, three ways to love you, it's true
One is the wrong way, one is the right way
But the best is the way I love you

One is the right way, so some people say with
Dining and dancing in some cabaret
Now some girls may think this is really ideal
But too late they'll find out that love isn't real

There are three ways
Three ways, three ways to love you, it's true
One is the wrong way, one is the right way
But the best is the way I love you

One is the best way, the way I love you
With all of my heart and for all my life through
I think of you only forget all the rest
I'll show you my darling that my way's the best

There are three ways
Three ways, three ways to love you, it's true
One is the wrong way, one is the right way
But the best is the way I love you
