

You Left Your Mark On Me

Kitty Wells

You left your mark on me beggin' on my heart to stay
Time by no one will erase it away
In public I wear a smile hold my head up high inside I'm so lonesome alone in a crowd
From morning till night from night until the dawn
I'll wake up cryin' because you're gone
Though we are far apart still I can't be free
There's no use denying you left your mark on me

I try but it's no use to drag your mem'ries away you're in my heart and bear to stay
I'll keep it to myself no one else will know the worst stars in life ain't never show
From morning till night...
