

# Break Down the Wall

Kleerup

I made a mistake  
Jumped right into it again  
But it's okay  
I felt the weight lifting  
From my head  
I was scared, I was scared  
Unprepared, unprepared  
I'm unprepared

Break down the wall  
So I can reach out for you  
Break down the wall  
So I can care  
Break down the wall  
So I can fall in love with you  
Break down the wall  
(x2)

Like a flower  
In your field  
I am moving to your wind  
And I'm alone, I'm alone  
I'm holding on  
And I'm alone, my faith is strong  
So break down the wall  
So I can reach out for you  
Break down the wall  
So I can care  
Break down the wall  
So I can fall in love with you  
Break down the wall (x2)

I know you want more  
But you're just standing there  
I know you want more  
But you're just standing

Break down the wall  
So I can reach out for you  
Break down the wall  
So I can care  
Break down the wall  
So I can fall in love with you  
Break down the wall (x2)
