

Hollow Way

Klone

Everything goes around there is no need to stay...
My world turned upside down I feel on black day

And how to disappear away?

I'm mislaid, I'm deprived, and my heart was beating down
I can read on you face the time I've lost until now

And how to disappear away?
And how to disappear away?

I carry the wreck of my soul
Under the surface, the world is off

I carry the wreck of my body.
Deep inside the tears, I sink
I can see on your old face the time I've lost until now

I carry the wreck of my soul
Under the surface, the world is off

I carry the wreck of my body.
Deep inside the tears, I sink
Am I a stranger to your eyes?
Am I the one who goes?

You pretend to know everything
...To know everything about me

I carry the wreck of my soul
Under the surface, the world is off

I carry the wreck of my body.
Deep inside the tears, I sink
My tears of rain...

I can read on your face, my tears of rain...
