

Back In the U.S.S.A.

KMFDM

We're gonna make you sorry
For every word you say
Like U-boat commanders
We stalk our prey

The name of the game
Is to do it the strongest
Last one laughing
Laughs the longest

The future belongs to those of us still willing to get our hands dirty!

Voyeuristic, vile, and victorious!
KMFDM is back!
Bow to the warriors! [2x]

Back in the USSA!

You're just another old stump
A rusty battle cruiser
Too tired to riot?!?!
You idiot - you loser

Back in the USSA!

You're just another old stump
A rusty battle cruiser
Too tired to riot?!?!
You idiot - you loser

Eternity's strange affliction
Overflow blackout to fix one nation
(A treat for the freaks - truth or dare)
Narcissistic creature (are you ready for this?)
My attention is fixed (we don't care)
Never in madness (we don't care)
Abomination of the awkward kiss (we don't care)
You make me sick (we don't care)
