

Make a Hit

Kodak Black

Bitch, I, I make so much goddamn hits
Don't get blitzed
Yeah, that part
Hitmaker and shit
Yeah, yeah, yeah
Yeah, yeah, yeah
Glee

Called the label, tell 'em that I need to make more than this
I been makin' hits my whole life, man, I make so much hits
I'm thankful, though, I'm grateful for this
Boy, I stayed up, I was waitin', but I prayed for this shit
Go and drop the addy, T-shirt with no panties
Audi came from Germany, I got it free in North Miami
She get on and tried to stay on the dick
Takin' all day long, spent a long day on the dick

She'll pull a high-speed, no brakes for the dick
That's why she'll get on her knees, she'll pray for the dick
Post inside her legs, break for it
Remember days runnin' up in your place, lick for lick
Run in your place, get in that nigga's safe like it ain't his
It's a blessing in disguise that my niggas in the pen'
Used to mask up and get in disguise, call it treat or trick
Lost my head, money on my mind, I can't think for shit
I got too much money, who wan' hate on this?
Too much money, gotta hit the school for some paperclips
All this paper in this room, no paperclips
I broke the ruler tryna calculate this shit
I'm dripped in flavor, all the 'Nolia boys sag
All this paper, I need a ruler or bookbag
Yeah, shawty said she hungry for the dick
She go apeshit, she said she'll kill police for the dick

Called the label, tell 'em that I need to make more than this
I been makin' hits my whole life, man, I make so much hits
I'm thankful, though, I'm grateful for this
Boy, I stayed up, I was waitin', but I prayed for this shit
Go and drop the addy, T-shirt with no panties
Audi came from Germany, I got it free in North Miami
She get on and tried to stay on the dick
Takin' all day long, spent a long day on the dick

She want a nigga to herself
She want a young nigga to help expand her wealth
I'm chillin', baby, like top shelf
Divin' inside of that pussy, feelin' like Michael Phelps
Lot of bodies on my belt
But she already knowin' that, she get past it
How you fit up in them jeans? Must be elastic
How I steal your heart like this, I'm doin' magic
Know shawty gon' hold me down through the madness
And lil' shawty beautiful, should be in pageants
Can't see her in no cubicle, lil' baby bossed up
In that Rover, shawty flossed up, it might cost ya
Single mother with a daughter, ain't got no time
Ride my dick just like it's MARTA, reverse, rewind

Tryna wake up to your face until I'm ninety-nine
Any nigga play with you, I'ma lay him down (It's Boat)

Called the label, tell 'em that I need to make more than this
I been makin' hits my whole life, man, I make so much hits
I'm thankful, though, I'm grateful for this
Boy, I stayed up, I was waitin', but I prayed for this shit
