

Round and Around

Kolohe Kai

(Yeah, oh oh oh, yeah)

If we all put our problems in a bag, which bag would you grab
Would you want a trade or would you take home what you had
Would you hate your cards and even fold your hand
Or open up your heart, grateful for what you have
Everyone's got their problems
Let's focus on the good, we can solve'em
Whether it's hot or raining, just stop complaining
We got some living to do

We got to go, it's time to grow
Through obstacles, round and around we go
Don't even worry 'bout it
Don't get so downhearted
Life is sunny and cloudy
Round and around we go

Giving up's not an option
So come on and climb this mountain with me
With all of your friends surrounded
We have found that life's worth living again
You don't have to be afraid you're gonna fall apart
Sometimes life's a masterpiece, you paint it in the dark
And that's when you know how beautiful you are
When you smile through your scars

We got to go, it's time to grow
Through obstacles, round and around we go
Don't even worry 'bout it
Don't get so downhearted
Life is sunny and cloudy
Round and around we go

We got to go, it's time to grow
Through obstacles, round and around we go
Don't even worry 'bout it
Don't get so downhearted
Life is sunny and cloudy
Round and around we go

Yeah, yeah
When life is getting tough
Don't you be giving up
Whether it's silly stuff or even if it's serious
Way past midnight
Soon now that sunlight will shine through your window
To bring back in the light in your eyes, yeah

You got to go (yeah)

We got to go, it's time to grow
Through obstacles, round and around we go
Don't even worry 'bout it
Don't get so downhearted
Life is sunny and cloudy
Round and around we go

We got to go, it's time to grow (yeah)
Through obstacles, round and around we go (round)
Don't even worry 'bout it (don't worry, don't worry 'bout it)
Don't get so downhearted
Life is sunny and cloudy
Round and around we go

Yeah, yeah
Round and around we go
Don't worry, don't worry 'bout it
Round and around we go
