

Look At Me

Kongos

Look at me I'll give you something to see
I'll speak free you got something I need
I tell my pride take a seat in the back
But there's an ego inside he's a maniac
Now I ain't trying to make a big scene
But you know me I gotta see and be seen

So look at me, oh, oh
Look at me
You got something I need you gotta give it to me

Look at me, oh, oh
Look at me
You got something I need you gotta give it to me, hey

Now the time has come for a yay or a nay
Like the moon and the sun each get's half the day
Day and night we play this game
I'm a free man at dawn, at dusk your slave
Slave to the need, the push and the pull
I need you gone but I want you to stay
Stay for the night, leave with the light
I need you gone but I want you to stay...

Another day gone by me dreaming I'm free
But I can't stop buying what you're selling to me
I say I don't care just what you think
But yeah you know me, I say it all with a wink

Look at me, oh, oh
Look at me
You got something I need you gotta give it to me, hey

Look at me, oh, oh
Look at me
You got something I need you gotta give it to me,
something I need you gotta give it to me

Hey, now the time has come for a yay or a nay
Like the moon and the sun each get's half the day
Day and night we play this game
With the dark on the light, the push and the pull
I'm a free man at dawn, at dusk your slave
I need you gone but I want you to stay
Stay for the night, leave with the light
I need you gone but I want you to stay...
Oh oh oh...

You got something I need you gotta give it to me, hey...
