It's like a time bomb you hit Vietnam ta Saigon
Keep your mind calm, your nine on, me hard ta find harm
Peep the crime dons rollin' wit ex-cons holdin' they out rons
And teflons ta be streets flooded wit red ponds
Like it was red dawn, bodies get found around without the heads on
Judges set bonds that figures they know niggas is dead on
What's left of death penalty facilities where niggas step on
Wit those that blew trough, go get they body filled wit electrons
The tec drawns, the ones that live foul, they're leavin' wet moms
Wit lead charms, put her ta bed wit her head drawn
Killas wit red palms leavin' bodies cool as the dead fawns
Caught in the dead wrong, found they way, ran into the feds arms
