

# Tonight's the Night

Kool & The Gang

Tonight, ooh  
This is the night you'll see the light  
Tonight, ooh  
This is the night you'll see the light

My 16th birthday I was so shy  
Not yet a man but ready to try  
Music playin', people swayin'  
I looked around she caught my eye

Walked into the room I couldn't hardly see  
There she was moving closer to me  
She told me her name before I could speak  
Took my hand and then she said these words to me

Tonight, ooh  
This is the night you'll see the light  
(That's what she said me)  
Tonight, ooh  
This is the night you'll see the light

Hey, beautiful girl so lovely tonight  
Show me the way show me the light  
Music playin', people swayin'  
Next thing I knew we started to groove

Dancin' and dancin' moving so free  
A feeling of love had come over me  
I held her close and knew it was right  
What a perfect surprise I had finally seen the light

Tonight, ooh  
This is the night you'll see the light  
(That's what she said me)  
Tonight, ooh  
(This is the night)  
This is the night you'll see the light

Tonight, you will finally see the light  
(Oh baby)  
Tonight, you will finally see the light  
(Oh baby)

Tonight, you will finally see the light  
(You will see, ooh you will see the light)  
Tonight you will finally see the light  
(Ooh yeah)

Oh, come on, I want to dance with you  
(Tonight, ooh)  
(This is the night you'll see the light)
