Dependency

Kosheen

Feels like you're watching me
everything i do and say
everywhere i go
feels like you're inside me
seeing through my eyes
still telling me what to do
keep pulling me down
pushing me
don't let me fall
you catch me
i'll be around
if you ever need
just call me
dependency

If i try and hide
i know you're going to find me
always a step behind
breathing down my neck again
tapping on my shoulders
trying to remind… me
keep pulling me down
pushing me
don't let me fall
you catch me
i'll be around
if you ever need
just call me
dependency

Just let me go
– just let me go
put me back where you found me
just let me go
– just let me go
just leave me there where you found me
just let me be
let me be me
don't confine me
just let me go
just call me
dependency
