

# Can You Hear The Sound

Kotipelto

As I walk down the streets of this town  
Completely new to me, what will I see  
The darkness is settling down, warm whisper of the wind  
I follow the crowd but don't know where they're  
leading me

Can you hear the sound  
Drifting through the air tonight  
Coming from the underground  
It can be heard so bright  
I must find more of that kind  
The sound of freedom's call

And as we reach a park where campfires burn  
It's already dark and it feels so good  
Then I see an old man singing with all his heart  
I join the circle now watching him enjoying the mood

Can you hear the sound  
Drifting through the air tonight  
Coming from the underground  
It can be heard so bright  
I must find more of that kind  
The sound of freedom's call
