

## Different Fate

Krabathor

The way you like to go has changed  
You don't like to choose a different way  
May be dirty, may be clean how it's suppose to be  
I guess it isn't bad it's the new fate

Dust to dust, Blood to blood  
Love to hate, Fate to fate

You have had a lot of different ideas  
Be different, go differently through this life  
Everything has changed in one minute  
I guess it isn't bad it's the new fate

The dusty days your living are dusty going  
Your dust you can't find anywhere  
Dust is up you, dust is on you, dust is inside you  
I guess it isn't bad it's the new fate
