

The Dance of Lies

Krampus

Dancing without face
the guests of life's ballet
Twirl on your desires
Hands in hand
chains on you

The ragged envy wobble nervous with friendship
The pestered Jealousy clung on the soft arm of Love
Courage's carrying the weight of Fear
This dance will go on for whole your life.

Liar
But i still can choose
Liar
I'm slave to no one
Liar
My will is stronger
I am free

Liar, you are just a flack of dust breezed around by our will
We were with you from your first wail,

We are what you see into the mirror
Even - the last nail of your coffin will be hammered by us.

From slave I'll be back to command
I still have some strength left inside me
And with it
I'll carve you from myself

Free from all your bonds
I walk
in the new life of mine
The new life begins
governed only by myself.

No more i'll anger for something that I don't deserve
Never I'll choke someone for my insecurity
I wont flee from what i'll find ahead
This dance of lies it's now over
