

I Get Around

Krayzie Bone

I Get Around
La-di-da-di-da-di-daa
I been around, I been around
I been around, baby I been around
I been around, baby I been around
Wait!
Before you get to telling me lies
I just wanna say that girl I knew the game all the time
I knew the game all the time
thought I was blinded
this simple minded
girl I can see the evil in your eye
look baby I've been around gotta know your kind
and how been to ya
yah I must got x-ray vision cause i see right through ya
im through with your games
cause I dont like to play
so you go your way
and I do my thang
I been around, baby I been around
Im not tryna play with you no mo'
I been around, baby I been around
I'ts the same ol' same we been there befo'
I been around, baby I been around
I think it would best if I just go
I been around, baby I been around
La-di-da-di-da-di-daa
So now you tryna tell me that
you having my baby
but you see everything
that I've been through with you
is got me look at you shady
Im thinking maybe
you could be trickin me
plottin on stickin me
but I aint the one
I really aint the one
to get over on easily
I guess you just dont have realize
that you had a good thang
but its to late cause im on the next plane
I been around, baby I been around
Im not tryna play with you no mo'
I been around, baby I been around
Its the same ol' same we been there befo'
I been around, baby I been around
I think it would best if I just go
I been around, baby I been around
La-di-da-di-da-di-daa
You felt this way you could get payed
to satisfy your way
and the same game that you play
you lost
you was wrong
and the cost
is im gone
I been around, baby I been around

Im not tryna play with you no mo'
I been around, baby I been around
Its the same ol' same we been there befo'
I been around, baby I been around
I think it would best if I just go
I been around, baby I been around
La-di-da-di-da-di-daa
