

# Let Me Learn

Krayzie Bone

Let me learn, let me learn, let me learn  
Let me learn, let me learn  
Let me learn, let me learn, let me learn  
Let me learn, let me learn  
Just let me live and learn  
'Cause I like to earn my life  
Just let me live and learn  
'Cause I like to earn my life

Look, I don't know too much  
A lot of people used to tell me that I hoped too much  
My family they seem to think I drink and smoke too much  
They know I'm goin' through it tough but I don't show too much  
I'm livin' life and I'm learnin' from all the experience that has been given  
to me  
Now I know how it really be this side of the industry  
Friends turned to frenemies, then straight up enemies  
Ain't nobody feelin' me unless I really be  
Lessons I've learned, lessons I've learned, I can clearly see it  
And I can feel it, it's really, I live it  
So keep your children spendin' oftentimes  
I get confused, I kinda lost in the mind  
Bang bang, gotta stay safe  
It's an exhaustin' ride

Just let me live and learn  
'Cause I like to earn my life  
Just let me live and learn  
'Cause I like to earn my life

I just wanna make it to the other side  
And scrape along to the other life  
Take away the darkness, hardness, feelin' kinda nauseous  
I remember feelin' when my mother died  
You never know, you could be here one day and then the next day you're gone  
I gotta get it together, I had to learn  
Life lessons, I graduated to a much higher class  
Had some trouble then I must rite of pass  
Let the sun shine in just a little bit  
And let us redefine me on some other shit  
See I was sent here for a purpose, for a reason  
When God is done with me on Earth, that's when I'm leavin'  
So walk here 'til you learn, everythin' concern me  
My family, my future, the movement  
The tuners, the rulers of it all  
So every day I'm alive, I celebrate the hell crazy, I defeated my odds  
Ain't crazy  
Jump inside and see my side, it was crazy  
If you don't focus you'll go crazy  
Head on your shoulders or you'll go crazy  
I've watched them go crazy

Just let me live and learn  
'Cause I like to earn my life  
Just let me live and learn  
'Cause I like to earn my life
