Stop trying what never works  
In my vocabulary

Do whatever necessary

Ever since I was young and my mother told me I can make it  
Even though daddy told me I'm just wasting my time, the mission was blind  
The vision is clear, I'm seeing me shine  
I've been through many dark tunnels, I pummel myself  
Against the flesh I'm rumbling with myself  
To reach the top I'm stumbling to prevail  
But at least I got my feet planted so well  
I don't really care about the women and the fame  
All I really care about is money in the bank  
Hundreds are the same so I hustle everyday  
Stay strong to the finish  
Just another day!  
Never say never I know I can do better, you better get on my level  
Imma stay on my criminals best  
Never settle for minimum less

24/7 the grinder shit  
Imma survivor let me remind ya that  
I stay on some grimy shit  
The thug mentality's is still in me  
I gotta get up and go get it  
Imma go get it  
Imma be ready  
I'm thinking wicked  
Cause I'm thinking money mane  
Strictly money mane  
It's rough in the hood  
Keep pushing, it'll never be enough in the hood  
So we stuck in the hood  
That's why nobody give a fuck in the hood  
Always tough luck in the hood  
So we posted on the block only option hustle your ass off

I was dealt a bad hand but I made good with bad cards
