

Ammunition

Krewella

Say my name again
Watch me start a riot
Push me to the edge
I know you want to try it

Give me all your energy
Love me like an enemy
I know that you'll never stop
So give me your best shot

I need you to be
The keys in my ignition
I need you to feed
The fire in me
Cause you're still my ammunition

You been on my mind
Bullet through my system
Don't apologize
I want the motivation

Give me all your energy
Love me like an enemy
I know I should give you up
But I just can't get enough

I need you to be
The keys in my ignition
I need you to feed
The fire in me
Cause you're still my ammunition
Cause you're still my ammunition

I need you to be
The keys in my ignition
I need you to feed
The fire in me
Cause you're still my ammunition
So don't hold back
Back back back back
So don't hold back
Back back back back
So don't hold back
Back back back back
So don't hold back
Back back back back
Put you in the gun
And the gun kicks back

I need you to be
The keys in my ignition
I need you to feed
The fire in me
Cause you're still my ammunition
Cause you're still my ammunition
