

# Ghost

Krewella

Nobody can touch me, I'm a f\*ckin' ghost  
Shadow in the corner while you out doing the most  
Nobody can know me, keep it on the low  
'Til I'm in the spotlight, giving you a show  
Nobody can run me, yeah, I'm in control  
Never gonna love me when my heart is so cold  
Nobody can touch me, everybody knows  
Never dead and gone, no, you can't kill a ghost

Baby, I did it all for you  
Did it all for you  
All I needed was endless devotion  
Baby, I did it all for you  
Did it all for you  
But I'm better without your devotion

Cross my heart, never die  
When I pull up you know  
I'm that bitch, ain't no lie  
You can't touch this if you tried  
Try to call, no one's home  
Leave a message at the tone  
At a party, on the low  
If you show up, I'ma ghost

Nobody can touch me, I'm a f\*ckin' ghost  
Nothing in your hand if you tryna catch smoke  
Nobody can cut me when I'm in my zone  
Never take the mask off, never see the soul  
Nobody can own me, single player mode  
If you ain't a day one, I'd rather be alone  
Nobody can touch me, everybody knows  
Never dead and gone, no, you can't kill a ghost

Baby, I did it all for you  
Did it all for you  
All I needed was endless devotion  
Baby, I did it all for you  
Did it all for you  
But I'm better without your devotion

Cross my heart, never die  
When I pull up you know  
I'm that bitch, ain't no lie  
You can't touch this if you tried  
Try to call, no one's home  
Leave a message at the tone  
At a party, on the low  
If you show up, I'ma ghost
