

# Paradise

Krewella

Oh my God where you've been all my life  
Oh my God cause I never been this high  
You showed me there's a heaven in the skies  
Cause you gave me a little piece of paradise

It won't be a long time  
Before I feel the red wine  
You got me up against a wall  
Know I'm bout to spill it all  
Tell you what's on my mind  
Your hands upon my waistline  
You know I know what you want  
No, if you start it won't stop

Cause you got me riding a wave  
And you got me feeling away  
You got me feeling away  
So close up the rest of this space  
Cause I want the taste of your name  
You got me feeling away

Oh my God where you have been all my life  
Oh my God cause I never been this high  
You showed me there's a heaven in the skies  
Cause you gave me a little piece of paradise

How you started as a stranger  
And now you're second nature  
Tell me tell me how you know  
How to make me let go  
Wanna savor it slowly  
Be the climax in your story  
You know that's the way it goes

Cause you got me riding a wave  
And you got me feeling away  
You got me feeling away  
So close up the rest of this space  
Cause I want the taste of your name  
You got me feeling away

Oh my God where you've been all my life  
Oh my God cause I never been this high  
You showed me there's a heaven in the skies  
Cause you gave me a little piece of paradise
