

## You're My Saving Grace...

Kristin Chenoweth

I've been a witness to a raging fire  
That's taken my soul to the wire  
Then burned and then pushed right to the wall  
Now I've come to believe you can't lose them all

Your love is my saving grace  
My one salvation in this crazy place  
Heaven's in your arms, where I know I'm safe  
And your love is my saving grace

Always was leaving or just passing through  
Searching for one thing that's true  
Oh, those days are over; from now on it's you  
And your love's the one thing I can't stand to lose

Your love is my saving grace  
My one salvation in this crazy place  
Heaven's in your arms, where I know I'm safe  
And your love is my saving grace
