

Animal

Kristina Maria

I can see you're talking
But all I can hear is static
Turn the volume up one time
The confidence is lacking
Hiding in the shadows
All you do is hold the walls up
Baby, what's the hold up?
What's with all these walls up?

You can feel the rhythm
But your body's being modest
Trapped in your cocoon
But underneath you are a goddess
Baby, you're the hottest
I'm just being honest
You should be released
Back into the wild

It's time, time to let the predator out
'Cause it's watch your back
You're a killer beast, you're an animal
And it's easy to see you're an animal

Tonight everyone will know what you are
You'll be out of the dark
When you're watching me, you're an animal
And it's easy to see you're an animal

Moving with your instincts
All you hear is but that heartbeat
Taking your position
To the hype that's in the story
Feeding off the spirits and the people are arousing
I can feel you pouncing
Damn the room is bouncing

Read me with the eyes
Ready to play
See me in the eyes
I'll be your prey

No more hesitation
The train has left the station
You should be released
Back into the wild

It's time, time to let the predator out
'Cause it's watch your back
You're a killer beast, you're an animal
And it's easy to see you're an animal

Tonight everyone will know what you are
You'll be out in the dark
When you're watching me, you're an animal
And it's easy to see you're an animal

So turn it up

I bring out the animal in you
You bring out the animal in me
It's time, time to let the predator out
'Cause it's watch your back
You're a killer beast, you're an animal
And it's easy to see you're an animal

Tonight everyone will know what you are
You'll be out in the dark
When you're watching me, you're an animal
And it's easy to see
You'll be out of the dark
When you're watching me, you're an animal
And it's easy to see you're an animal
