

Bang U up

Kristina Maria

I'm not your lady friend
I'm not your backup girl
I'm not your late-night call in your lonely world
I'm not your girly flick
I'm not your trophy chick
Made up my mind
Now it's time for you to pack your shit

You gotta get, get, get, get away from here
You gotta go, go, go, I'm no status quo
I'm gonna let you know
Baby, don't you know

You should've taken better care of what you had
'Cause your begging and your crying won't bring me back
Take one last look and turn around
I don't care what you do, babe, just figure it out

I will play you up
Don't you try to mess with me 'cause I'll bang you up
Yeah!

You think that I'm so whipped
You think that I'm your bitch
Boy, you think you got me wrapped around your fingertip
You think I'm coming back
You think I'm feeling bad
Take my word, you're absurd
Yeah, I'm better than that

You gotta get, get, get, get away from here
You gotta go, go, go, I'm no status quo
I'm gonna let you know
Baby, don't you know

You should've taken better care of what you had
'Cause your begging and your crying won't bring me back
Take one last look and turn around
I don't care what you do, babe, just figure it out

I will play you up
Don't you try to mess with me 'cause I'll bang you up
Yeah!

Bang, bang, bang, bang you up
I'm gonna bang, bang, bang, bang you up
I'm gonna bang, bang, bang, bang you up (echoes away)

You should've taken better care of what you had
'Cause your begging and your crying won't bring me back
Take one last look and turn around
I don't care what you do, babe, just figure it out [x2]

I will play you up
Don't you try to mess with me 'cause I'll bang you up
