

# Run

Kristina Maria

I cannot believe my eyes  
Shining so very bright  
Everything that I dreamed of  
you brought into my life  
And Love made its way to my heart  
Every day I keep falling deeper than ever  
Doesn't get better than this no no  
And I don't want to spend a second a part from you  
Cause every moment that I'm away from you  
All I can think of  
All that I want is to

Run run run straight back into your arms run run  
Like nothing can keep me away  
From you  
like running is all I know  
All that I want to do  
You make me wanna run run for love

I feel bliss every time we kiss  
Every time you touch me  
We get up beside-al feeling your heart beat next to mine  
And I, I don't wanna spend a second a part from you  
Cause every moment that  
I'm away from you  
All I can think of  
All that I want is to

Run run run straight back into your arms run run run  
Like no thing can keep me away from you  
Like running is all I know  
All I wanna do  
You make me wanna run run  
run for love

Like my life keep felling on it  
Like my destiny is calling  
Like its all I know when it's not in my control  
You make me wanna run run run  
Run run run  
You make me wanna run run run  
Like no thing can keep me away from you  
Like running is all I know  
All I wanna do  
You make me wanna run run  
Run for love  
Run for love
