How can they throw you in prison now for long years If in reality the black man doesn't belong here Have you forgotten how we got to this place Why then are all the jails predominantly the black race If you don't teach me my culture I don't know who I am I don't know the difference between my enemy and my friend So I'm robbin and killin I got nothing to live for You turn my father into a boy my mother into a whore Now I'm hardcore on the Ave Watching while people that got me to walk fast After beatin us, rapin us and robbin us 400 years of that's what's inside of us Take a look at me now I'm really your creation A technological anti-human mutation A mutation of a better way of life You first pulled the knife but to heal it will take my whole life I fought no force on this level I listen to bass and treble Thinking that the white man is the devil Cause who could be so cruel like this So heartless, so senseless But I'm taught by the devil To grow up and be a Devil To do the same devilish things on another level However when I act out the mission You turn around and throw me in prison You a sucker

If you come from France and you like the breakdance say OHOH (OHOH) And If you come from New York and you like the way I talk say Yeah (Yeah)

You can kill a man by taking him out of his land
And putting him in a land he really doesn't understand
Then teach him to respect Greek mythology like
Pythagorus, Ptolomies, Socrates
These people are thieves
They stole us astronomy, mathematics, all tactics of biology
Even the concept of democracy stolen from the king Akhanoton
Put down the book, use your brain
If you don't know who you are you are clinically insane
The board of education cant see that
Well it deserves to get beaten and robbed by black
Give me my frame of mind back
Give me my culture
But you don't understand that cause you a sucker

I see Beauval in the house, Collinet in the house
