

Lead Me

Krystal Harris

oh no no no no no

lately something's come over me
i once was blind, oh but now i see
a power flowing through my soul
giving me control
making me feel whole

[Chorus]

lead me, all through the days i go
i need you all through my life i know

all my life i felt that i
would rise above and reach the sky
all i needed was a helping hand
and there you were
for me once again

[Chorus]

(i need you in my life)
(i need you)

now i can thank you
for showing the way
keeping me strong
every day
all because of you
i can do anything
lead me home
lead me home

please don't leave me
don't go away
cause i need you today in my life

[Chorus 2x]

cause i need you today in my . . .
