

# Can't Stay

Krystal Meyers

My obsessions get the best of me  
And lately I've felt incomplete  
Whenever I try to pull through  
I slip further away from you

I'm sick of all this tension  
My sanity can't be found  
And I don't wanna go on living like you're not around

It's time  
I have to draw the line  
It's gone way too far now  
I won't wait another day  
I need you to fill the empty space  
And take me from this place  
I can't stay

I'm sorry that I've been so cold  
My excuses are pitiful  
I've done all I can to gain control  
But you are the hand I need to hold

I'm not capable of saving myself  
I've finally figured out how to rely on someone else

It's time  
I have to draw the line  
It's gone way too far now  
I won't wait another day  
I need you to fill the empty space  
And take me from this place  
I can't stay

I can't stay (4x)

It's time  
I have to draw the line  
It's gone way too far now  
I won't wait another day  
I need you to fill the empty space  
And take me from this place  
I can't stay  
(2x)
