

Collide

Krystal Meyers

Like a spotlight that breaks into the darkness
Like an arrow that's racing to its target
I got You in my sight
I am fixed on You
And I can hear You callin'
Looking for me too!

Nothing's gonna stop me cuz I'm on a mission
I'm gettin ready for a demolition

Collide
Crash into me
Collide
I want to be
Broken by You
And made brand new
Collide

In the aftermath of Your hurricane
It won't be what I lost but what I stand to gain
So bring Your storm to me
Cuz I know when it's through
The clouds will roll away
And the sky will turn to blue

Nothing's gonna stop me I know what I'm doin'
Make something beautiful come out of the ruins

Rearrange me
Only You can save me
