

# Love It Away

Krystal Meyers

You can't hear your heart  
And you can't see your dreams  
Feels like your world is falling apart  
And your soul's torn at the seams  
Do you know when your world is unraveling  
Holding on, hanging by a thread  
Don't you know there's somebody to pull you in  
Don't cry anymore

He will, He will  
Love it away  
He will be there every day  
If you're hurting, feeling afraid  
He will...  
Love, love, love it away

What are you fighting for  
And what are you running from  
Moving like a fast train out of control  
Pretending there's nothing wrong  
I know you're thinking you're all alone  
And you wear a smile to cover up the pain  
You don't have anywhere else to go  
Don't fight it anymore

You're so sure that no one knows  
What you're going through  
I know exactly how you feel  
'Cause I see myself in you  
What is broken  
What's been stolen  
Our Father will restore

Love it away , love it away  
Love it away, love it away...
