

Make Some Noise

Krystal Meyers

Yeah, you're so convinced of how it's supposed to be
I know that you're confused
Don't take it out on me
We're not afraid to try
We're not afraid to dream
But when it all goes wrong we're not afraid to scream
'Cause the future now is ours to make
Oh, Oh, Shout it out

Get ready 'cause we like it loud
'Cause we were born to make some noise
Don't tell me we should turn it down
'Cause we were born to make some noise
Make Some Noise
Make Some Noise

We're not the enemy
You might be surprised
Don't need hypocrisy to open up our eyes
We don't need your rules
Don't need a uniform
This is who we are
We won't be ignored
'Cause the future now is all that remains
Oh, Oh, Shout it out

Get ready 'cause we like it loud
'Cause we were born to make some noise
Don't tell me we should turn it down
'Cause we were born to make some noise
Nobody's gonna shut it down, yeah
'Cause we were born to make some noise
We could turn this whole thing around
Come on all you girls and boys
Make Some Noise
Make Some Noise
Make Some Noise

Just for once (just for once)
Can you think for yourself (can you think)
Stuck in the same place
We don't have anytime to waste
