

# Turned a Light On

Kt Tunstall

There was only black space  
Life lived in negative  
Couldn't find my color  
And there was only one place  
A potential positive  
That I could be something other

You turned a light on  
Turned a light on  
To me  
You gave me reason  
For me to hold on  
I came alive then  
It made me feel  
Like you  
You turned a light on  
Turned a light on

Well I could hope all I wanted  
If I prayed then I would  
I trusted you with everything  
before I even knew I could

You turned a light on  
Turned a light on  
To me  
You gave me reason  
For me to hold on  
I came alive then  
It made me feel  
Like you  
You turned a light on  
Turned a light on

I wasn't sure who I was anymore  
Disappeared without [?] happening  
It was as if there a ring I never knew existed  
Opened up, and whisked me in  
I was dizzy (Dead, dead and gone)  
I was dizzy (Dead, dead and gone)  
I was dizzy (Dead, dead and gone)  
I was dead, I was dead, dead and gone

You turned a light on  
Turned a light on  
To me  
You gave me reason  
For me to hold on  
I came alive then  
It made me feel  
Like you  
You turned a light on  
Turned a light on

I can see, see the light  
I can see, like a [?]
