

# Before You Leave

Kurt Nilsen

Stay, stay a little longer.  
Do you have to go away?  
Stay stay for tomorrow.  
Then I will know, if I'd rather be alone.

Take, take a moment of time and turn it back  
So we can start from scratch  
Suppose, I'll leave all I've got  
Would it make it easier on your heart?

Well I'll take what I can before you leave  
If that is just a smile  
I'll stay up all night, so I can watch you breathe  
If that is alright  
Come on and show me that silky skin  
You're oh so fine  
I know we could turn it right  
I know we could turn it right

Throw; throw me a lifeline way out to sea  
Would you save me if it all goes wrong?  
Grab, grab me 'cause I'm yours  
Forever that's for sure  
Because that's what I want you to tell me

Well I'll take what I can before you leave  
If that is just a smile  
I'll stay up all night so I can watch you breathe  
If that is alright  
Come on and show me that silky skin  
You're oh so fine  
I know we could turn it right  
I know we could turn it right

But it's all an illusion  
Easier said than done  
Let's make a conclusion  
Is it worth giving it a try?

Well I'll take what I can before you leave  
If that is just a smile  
I'll stay up all night so I can watch you breathe  
If that is alright  
Come on and show me that silky skin  
You're oh so fine  
I know we could turn it right  
I know we could turn it right

Come on and show me that silky skin  
You're oh so fine  
I know we could turn it right  
I know we could turn it right
