

Games We Play

Kurt Nilsen

You say
It's solid poetry
It's what you want to see
Some sensuality

When you cry,
I just can't prove you wrong
Hell I just play along
I guess it turns you on

The games we play
The shows we give
The hearts we break
We live through this
The games we play

Yeah

(Oh) Do right,
It's getting critical
Are we too cynical?
Could use a miracle

The games we play
The shows we give
My heart you break
I live through this
The games we play

The games we play
the rules we make
Like secret codes,
We can't escape
The games we play
The games we play

You say
There really is no doubt
We just can't do without

The games we play
The games we play

The games we play
The shows we give
The hearts we break
We live through this
The games we play

The games we play
The rules we bend
With lovers lust, we will defend
The games we play

You say
It's solid poetry
