Hmm hmm

Verse 1

Don't mind if you treat me bad again, I don't care anymore

Life's too short to make trouble out of small things

F

C

It is better this way, I'm sort of laid back today

F

C

Close my ears when words come flying out, I've heard them all before

With just a lot of hope flushing down the drain, it is better this way

I am going away

Chorus

Ami F C G

I tried and then some more

Instead of dragging the both of us down

Dmi C

Divide separate ways

F

C

It's never easy this way, it's never easy this way

Verse 2

My palms are sweating, I'm barely aware, what I'm turning down

This awful life that is what I've been told think it's better this way

I will regret it one day

Chorus

I tried and then some more

Instead of dragging the both of us down

Divide separate ways

It's never easy this way, it's never easy this way

Verse 3

Talk to me, throw the ball back

I've been here before there is no turning back

Talk to me just tell it like it is

Just two afraid souls, going at each other, at each other

We're at the crossroad going separate ways, time to say it as it is

And if we bump into each other one day we'll be better then

Maybe we can start all over again

Yeahhh

Chorus

I tried and then some more

Instead of dragging the both of us down

Divide separate ways

It's never easy this way, its never easy this way

I tried and then some more

Instead of dragging the both of us down

Divide separate ways

It's never easy this way, it's never easy this way
